

Entrepreneurship Cell

To inculcate entrepreneurship qualities among the students, in 2014, **Entrepreneurship Cell** was established in the Institute. Cell will provide an Ecosystem to work with an amicable team and execute the ideas fluently. Basic infrastructural support such as lab space, computer access and high-speed internet access will be provided. It also facilitates networking with Industries for advice. EDC is a platform to promote innovation in Educational Institutions and support the students to be Entrepreneurs. The main objective is to encourage students with innovative ideas bearing impact on Industry/Society and nurture them by providing a conducive Eco-system to become successful Entrepreneurs. Cell has Advisory committee for overseeing the operations of Incubation Centre and Project Monitoring and Assessment Committee (PMAC) for evaluation and mentoring which is chaired by Principal and members constituting of Senior Professors, Industrial people, Entrepreneurs and Expertise in the field. To foster required skills and to keep students motivated Ideathons, Hackathons and Entrepreneurship boot camps were conducted.
